

The Lions International Trading Pin Club  
Presents The Pin Series

# The Wonderful World of Water

2018 - 2020

Edited & Published by  
PCC William A. "Bill" Smith

We would like to acknowledge and thank Ms. Holly Hamilton of River Valley Pin Creations, Williamsburg, PA, for developing the *Wonderful World of Water Logo* that we will be using on this and future updates. Ms. Hamilton is a graduate of The Greater Altoona Career & Technology Center and The Art Institute of York, where she earned her bachelor's degree. After graduating, and with the help of the Pennsylvania Career Link, she became an intern at River Valley.

**IMPORTANT - PLEASE READ**  
**Guidelines**  
**THE WONDERFUL**  
**WORLD OF WATER**

1. All pins issued with the theme of the series between 1 July 2018 and 30 June 2020 will be eligible for the catalog.
2. If you did not issue the pin yourself and the pin or pins are issued by an individual Lions club or other Lions entity, or a non-pin trader, it is **YOUR** responsibility to obtain the needed permission to include the pin in the catalog. Consideration of whether the issuer has a sufficient quantity to meet the needs/desires of the pin traders is always an important factor.
3. Monthly updates will be issued if the number of new items is sufficient. Generally, updates will be issued during the last week of a month and the pins included therein are intended to reflect the items that will be available at the next pin swap.
4. Every effort should be made to keep the number of pins in a given set to a maximum of 12.
5. Over the years, the biggest complaint about a series has been a set with a single image and only a color change on each pin. There was a distinct improvement during the Animal & Trains (A&T) Series and we trust that this feature will be completely eradicated in this series. To that end, we urge that when you are developing sets to please remember that with this advance notice, it is our intent to enforce the rule that **if all pins in a set are identical except for a color difference, we will show only one pin and merely list the other participants by name.** We did make a couple of exceptions during the A&T Series when it was noted that some sets were ordered well in advance of their introduction in order to take advantage of price breaks for quantity discounts. Once again this advance notice should make those exceptions unnecessary.
6. In selecting the participants in a set, **please avoid** including non-pin traders or individuals who rarely, if ever, attend the various swaps or conventions.

## WONDERFUL WORLD OF WATER (Cont'd)

7. There are no objections to cartoon type pins provided they are in good taste and do not violate trade mark and/or copyright provisions. Should there be any questions or objections whatsoever to your using such images, it will be YOUR responsibility to resolve the question. This is a serious matter which could have a significant financial burden on you if you choose to ignore it.
8. In order to maintain a high degree of quality in the production of updates, we will NOT accept pictures of pins or artwork of pins for inclusion in the catalog as a substitute for the actual pin. In this connection, you should be prepared to provide one of each pin you wish to have included in a particular update to PCC Bill Smith, 3643 Osborne Drive, Warrenton VA 20187. He will buy or trade for the pins, based on your desires, or if you wish, will return the pins provided you are agreeable to pay the postage for returned pins.
9. Pins which depict items that can be associated with the water will be accepted for this series. However, this series **will NOT include MILITARY ships, boats, or submarines**. Those subjects were adequately covered in a previous series. Examples of items that are acceptable are sailboats, all items related to fishing, including fish (sea and fresh water), lures, rods and reels, anchors, buoys, cruise ships, water birds, water falls, all ocean creatures, ice related items. If you have any questions whatsoever about the eligibility of the subject of a pin, we urge you to contact PCC Bill Smith prior to ordering your pin. Lion Bill can be reached by email on [tabs52@comcast.net](mailto:tabs52@comcast.net) or by telephone on 540-349-2748.

## WONDERFUL WORLD OF WATER

Aug 2018

**The Sinking of the Titanic.** This one will require some attention to details if you are going to be successful in obtaining these pins. The intent of the originators was that this would be basically a two pin set that when joined together, with the iceberg in the rear, you would have the Titanic as it looked before it hit the iceberg. Separately, you would have the rear (Stern) and the front (Bow). The Stern would be traded by one couple and the Bow by another. Well, when the pins arrived they were joined by a hinge and did not separate. This was NOT satisfactory to the originators of the pins. Thus, a second set was ordered and the Bow and Stern were definitely two distinct pins. The originators decided to trade both versions. Now that I've probably confused you, here are the two versions that you will need to collect to (hopefully) have both sets. .

WW 0031 18

Jason Radmann & Amos Shatzer (PA)

NOTE: This is the pin on a hinge and does not separate. It will swivel and you can see the iceberg in the background much better. Both Lions Jason and Amos will be trading this one.

NOTE: This is the same pin as the pin on the left. It is shown here so you can see what it looks like when hinged downward.

WW 0032 18

Jason & Trisha Radmann (PA)

NOTE: This is the stern section of the Titanic and is traded separately by Lions Jason and Trisha.

WW 0033 18

Amos & Kay Shatzer (PA)

NOTE: This is the bow section of the Titanic and is traded separately by Lions Amos and Kay.

NOTE: This is the image of the two separate pins together. Once you have traded with Lions Jason and Trisha for the stern and Lions Amos and Kay for the bow, you will have the whole Titanic, as shown above.

**ATTENTION SANTA & MUSICAL NOTE COLLECTORS.** Yes, that is Santa on the bow of the Titanic so you will want to have the pins for that collection also. For you Musical Note Collectors, if you take a magnifying glass, you may very well find small musical notes on the smoke stacks.

An interesting tale about this set. **Josh Marshall**, who happens to be the son-in-law of **Steve and Mary Ellen Sherer**, owns a tackle business called “*Marshall Custom Tackle*” and Josh features hand-made, hand-painted fishing lures of all kinds. The Muskie lures are his specialty. In this set, the 10 pins are pictures of his actual lures. The AM Tiger is named for Steve and Mary Ellen’s daughter, **Alison**. The fun part of the story is the lure business is a part time one and pays for the fishing hobby Josh pursues. And, as the saying goes, *you now have the other side of the story about this set.*

At first glance, you might think the two pins to the left are identical. I certainly did when PDG Bob Walker sent them to me and I inserted the one on the left in the Sep 2018 Update. Knowing Bob is aware that I also collect Santa pins, I just assumed he had sent me an extra one for that collection. However, if you look closely, and if you are a good fisherman, you will notice that the one on the left, Santa is pulling up a Muskie fish while the one on the right he is pulling up a Large Mouth Bass. I have pulled the Muskie fish pin from page WW-9 in the September update so you can see the difference, if you haven't already done so.

North Carolina Pin Traders  
Honoring Camp Dogwood  
Over 50 Years of Service

FYI, we have enlarged the picture part of the pin to the left to give you a better view of the outstanding facility known as Camp Dogwood, which is the site of the NCLPTC Annual Pin Swap. This is looking from Lake Norman up to the building where the swap is actually held. This is but one building of several on the campus of Lake Dogwood. The overall facility and the warm hospitality of the North Carolina traders help to make this one of the truly inviting swaps each year.

Just a few facts about Lake Norman. The lake was created between 1959 and 1964 as part of the construction of the Cowans Ford Dam project by Duke Energy. It is the largest man-made body of fresh water in North Carolina. Lake Norman covers 1,790 square miles and is 33.6 miles in length with a maximum width of 9 miles. There are 520 miles of shore length. These are just a few of the facts that help you to better understand why this pin issued by the NCLPTC is a prime example of the Wonderful World of Water.

**At the specific request of Lion Tom Antikainen, President of the 5M Pin Trading Club, the descriptions of two pins, WW 0220 18 and WW 0221 18 on page WW-25, have been changed to reflect that the pins are personal issues and not 5M Pin Trading Club issues. Although the wording on the pins clearly indicate otherwise, we are respecting the wishes of President Tom. FYI, a page substitution is provided following this page.**

The international Maritime Signal Flags are part of the *International Code of Signals*. Once used extensively, they now serve as a backup to electronic communications between ships. They can be combined to spell words or used individually to denote a particular situation or condition. Only five (5) colors are used: red, yellow, black, dark blue, and white, as these are best to stand out against the sky.

NOTE: In response to a number of inquiries as to the connection between the MerLion and the Wonderful World of Water, the MerLion is a mythological creature of the sea. It features the head of a lion and the body of a fish. It is also the official mascot of Singapore, which should explain the extensive use of the creature on so many Lions Club pins for 2019-20. Our international convention for 2020, as you know, is scheduled to be in Singapore.

The three pins above are the basic pins in an unusual puzzle pin set. You will need to trade for all three in order to complete the puzzle. First, the princess kisses the frog which turns into the prince and then the prince and princess have the ultimate kiss and the frog is no longer a factor. If you really want to have the complete puzzle, you will need to trade for an extra princess since she goes together with both the frog and the prince. Good luck and have fun.

**MARCH 2020**

**NOTE;** Some of you have called or sent emails to point out that I failed to assign a number to the last two pins ( the Crab set) in the last update and I sincerely appreciate your attention to details like that. In my haste to get the corrected page out to you, I just simply forgot to add the numbers. If you will be so kind to make a pen and ink change, I would deeply appreciate it. The pin for Susan Golladay should have had WW 0988 20, and the pin for Vrla Leach should have had WW 0989 20.

**NOTE No. 2:** The next page is a Corrected page WW-106. I mistakenly identified image WW 0964 19 as being issued by the Massachusetts Pin Traders. It was actually issued by the Mississippi Pin Traders. My apology to both pin trading clubs.

**NOTE No. 3:** In recognition that some of you would not have had your pins shown in this update because of delays in shipment from the pin factories, I have agreed, on a one-time basis, to use the artwork that was created and furnished the factory. It is important to note that the size of the pin being displayed may not be the exact size of the actual pin. Also, the lettering on the artwork, although very clear, may not look exactly like the lettering of a pin that is scanned.

I have placed a note on the pages where the artwork has been used in lieu of the pin.

Scott Corson (OK)  
Lion Fish

NOTE: The three pins shown above are the seventh, eighth, and ninth in an eventual set of 11 Venomous Marine Creatures to be issued by Lion Scott Corson. The venom in a Box Jellyfish is extremely potent and can cause a heart attack or even death in humans. The incredibly toxic venom of a Cone Snail causes almost immediate paralysis and can eventually kill its victims. The venom found in the Lion Fish is not necessarily deadly for humans, but it can cause an immense amount of pain, swelling, and blistering if not treated in a timely manner.
